Candidal vaginitis, miconazole nitrate in, **385***
Candidosis, chronic vaginal, cell-mediated deficiency and humoral immune response in, **238***
Candidosis, vulvo-vaginal, in pregnancy, treated with clotrimazole, **310***
Carcinoma *in-situ* changes in pigmented penile papules, **238***
Cefoxitin sodium, effect on *N. gonorrhoeae*, **156**
Cefuroxime, in-vitro activity against *T. pallidum*, **70***
Cerebrospinal fluid, penetration of antibiotics into, **74***
Cervical carcinoma and herpes simplex virus type 2: animal model for induction of latency, **73***
Cervical carcinoma, antibodies to herpes simplex virus type 2 in husbands of patients with, **73***
Cervical carcinoma, organ culture model for herpes simplex virus type 2 in, **385**
Cervical carcinoma, relation of herpes simplex virus type 2 to, **385**
Cervicitis, chlamydiae and abnormal Papanicolaou smears, **310***
Cervix, infection with *C. trachomatis*, **72**
Chancroid in Greenland 1977-78, **311**
Chimpanzee urethral and pharyngeal infections with *C. trachomatis*, **310**
Chlamydia infection associated with Reiter's syndrome, **237**
Chlamydia isolation methods in current medical practice and epidemiology, **73***
Chlamydia trachomatis and *N. gonorrhoeae* comparison of genital infections caused by, **237***
C. trachomatis and pneumonia in infants, two cases, **309**
C. trachomatis cervicitis in gynaecological outpatients, **309**
C. trachomatis cultures in mouse peritoneal macrophages: factors affecting growth, **73***
C. trachomatis, effect of cortisol on growth of, **156**
C. trachomatis, examination for, in patients with non-gonococcal urethritis, **236**
C. trachomatis, experimental chimpanzee urethral and pharyngeal infections, **310**
C. trachomatis, experimental salpingitis in monkeys, **310***
C. trachomatis infection of cervix, **72**
C. trachomatis infections, multiple site involvement in neonates, **309**
C. trachomatis, 15-month follow-up in women infected with, **237**
C. trachomatis nasopharyngitis and pneumonia in baboons, histopathology, **309**
C. trachomatis, predicted efficacy of antibiotics in treatment of, **156**
C. trachomatis, role in post-gonococcal urethritis in homosexual and heterosexual men, **308**
C. trachomatis, sensitivity to rosamicin, **156**
C. trachomatis urethritis, a culture and therapeutic study, **310***
C. trachomatis, vaccine against infection of genital tract with, **237***
Chlamydiae, cervicitis and abnormal Papanicolaou smears, **310***
Chlamydiae, immunoperoxidase and immunofluorescence staining for detection of, **157***
Chlamydial antibodies in Crohn's disease and ulcerative colitis, **312**
Chlamydial antibodies, LGV-type in Crohn's disease, **311**
Chlamydial antibodies, single antigen immunofluorescence test for, **72**
Chlamydial infections of guinea pigs, enteric vaccines as protection against, **238**
Chlamydial ocular infections, rapid serological test for, **156**
Chlamydial pneumonia and human sexuality, **310***
Chlamydial pneumonitis **73***, **309**
Chloramphenicol, inhibition of *N. gonorrhoeae*, **235***
Cholesterol, binding by *N. gonorrhoeae*, **235***

Clotrimazole in vulvo-vaginal candidosis in pregnancy, **310***
Clotrimazole, miconazole and amphotericin B, in vitro studies, **238**
Congo-red disc, differentiation of *N. gonorrhoeae* and *N. meningitidis* by, **235**
Contagious equine metritis, serological response of patients with non-gonococcal urethritis to organism of, **310**
Cortisol, effect on growth of *C. trachomatis*, **156**
Co-trimoxazole and ampicillin compared in treatment of gonorrhoea, **236**
Co-trimoxazole and minocycline in treatment of prostatitis, **159***
Co-trimoxazole in gonococcal urethritis, **236**
Counterimmunoelectrophoresis, detection of antibodies to *N. gonorrhoeae* by, **71***
C-reactive protein in Jarisch-Herxheimer reaction in early syphilis, **154**
Crohn's disease, antibodies against LGV-type chlamydial in, **311**
Crohn's disease, chlamydial antibodies in, **312**
Cytomegalovirus, latency and activation of, **386***

Diabetic patients, prevalence of yeasts in, **157***
Disc agar diffusion susceptibility testing of yeasts, **157**
Drug resistance in *N. gonorrhoeae*, **71***

Electron transport, effects of inhibitors in *N. gonorrhoeae*, **71***
Erythromycin, in vitro activity against *N. gonorrhoeae*, **236**
Ether, topical, ineffectiveness in treatment of herpes genitalis, **73**

5-fluorocytosine, effect on *C. albicans*, **385***
5-fluorocytosine, susceptibility of *C. albicans* to, correlation with serotype, **385***
5-fluorouracil on refractory genital warts, **311**
5-fluorouracil urethral suppositories in genital warts, **238***

Gonococcal antibodies and antigens, studies on circulating, **70**
Gonococcal arthritis, ESR in, **234**
Gonococcal conjunctivitis, laboratory acquired, **383***
Gonococcal infections, disseminated, role of iron in, **70***
Gonococcal membrane fractions, penicillin-binding in, **71***
Gonococcal ophthalmia neonatorum, β-lactamase-producing *N. gonorrhoeae* causing, **234**
Gonococcal orogastric contamination, **155***
Gonococcal pharyngitis and rheumatic fever in an adult, **383**
Gonococcal urethritis, asymptomatic, **155***
Gonococcal urethritis, co-trimoxazole in treatment of, **236**
Gonococcal urethritis, pharmokinetic determinants of penicillin cure of, **384**
Gonorrhoea, acridine orange-staining of smears for diagnosis of, **384***
Gonorrhoea, bacampicillin in, **384**
Gonorrhoea, classes of antibodies in acute, **383**
Gonorrhoea, comparison of treatment with co-trimoxazole and ampicillin, **236**
Gonorrhoea, epidemiological treatment of, basis for, **236**
Gonorrhoea, IgA-cleaving protease in vaginal washings, **308**
Gonorrhoea in homosexual men, **155***
Gonorrhoea in posthysterectomy patients, **154**
Gonorrhoea in pregnancy, **234**
Gonorrhoea patients, tracing and treating contacts of, **236***
Gonorrhoea, pharyngeal, ampicillin in, **72**
Gonorrhoea, prevention with minocycline, **384**
Gonorrhoea, recent advances, **155***
Gonorrhoea, screening for, **70***
Gonorrhoea, treatment of, **385***
Gonorrhoea, type-14 pneumococcal vaccine for prevention of, **384***
Greenland, chancroid in, 1977-78, **311**

Haemophilus ducreyi, antimicrobial sensitivity of, **73**
H. ducreyi, hemin requirement, **73***
H. influenzae, in vitro activity of piperacillin and other β-lactamase antibiotics against, **384***
H. vaginalis, factors affecting isolation and identification, **312**
H. vaginalis in non-specific vaginitis, **74***
H. vaginalis, role in non-specific vaginitis and treatment with metronidazole, **73**
H. vaginalis, salient features of, **312**
Hawaii, non-gonococcal urethritis in, **72**
Hemagglutination tests for syphilis antibody, **70**
Hepatitis B, natural history and prevention re-examined, **312***
Hepatitis B, prevention of, **386***
Herpes, genital, and caesarian section, **385***
Herpes, genital, ascending infection, **385***
Herpes, genital, cellular immune response in, **157**
Herpes, genital, clinical course, diagnosis and evaluation of surfactant therapy, **310**
Herpes, genital, during pregnancy, **385**
Herpes, genital, ineffectiveness of topical ether in treatment of, **73**
Herpes, genital, levamisole treatment of, **72**
Herpes, genital, proctitis associated with, **158***
Herpes, genital, semen in men with recurrent infections, **158**
Herpes, genital, treatment with photodynamic inactivation, **311***
Herpes, genital, virus isolation versus immunofluorescent staining in diagnosis of, **158**
Herpes simplex, surgery for recurrence, **158***
Herpes simplex virus, comparison of tests for antibody to, **385***
Herpes simplex virus, differentiation between types 1 and 2 by antibodies, **385***
Herpes simplex virus, immunoassay for antibodies to, **385***
Herpes simplex virus, latency effect of pyran on, **385***
Herpes simplex virus, restriction-enzyme technology to distinguish types 1 and 2, **385***
Herpes simplex viruses, suppression of growth by cell-mediated, antibody and interferon mechanisms, **238***
Herpes simplex virus type 2 antibodies in husbands of patients with cervical carcinoma, **73***
Herpes simplex virus type 2 infection, antibody-mediated recovery from, **158***
Herpes simplex virus type 2, organ culture model for cervical carcinoma, **385**

Herpes simplex virus type 2, relation to carcinoma of cervix, **385**
Herpes simplex virus type 2, relation to carcinoma of cervix: animal model for induction of latency, **73***
Herpes simplex virus type 2 vaginal and systemic infections, comparison of macrophage inhibitory agents on, **238***
Herpes virus fingerprinting, **311**
Herpes virus, immune control of latency, **385***
Herpes virus vaccine, protection of guinea pigs, **238***
Herpes viruses, persistence, reactivation and cell transformation, **385***
Herpes viruses, replication and latency, **385***
Homosexuals, ano-genital infection with *N. meningitidis*, **74**
Homosexuals, gonorrhoea in, **155***
Homosexuals, liver disease in, **311**
Homosexuals, STD in, **312***

Iron, role of, in disseminated gonococcal infections, **70***

Jarisch-Herxheimer reaction, C-reactive protein in, **154**
Johannesburg, antibiotic sensitivity of *N. gonorrhoeae* in, **156***

Levamisole treatment in recurrent herpes genitalis, **73**
Lipopolysaccharide (R-type) as a common antigen of *N. gonorrhoeae* (1) Immunizing properties, **71***
(2) Hen antiserum in rapid slide test, **71***
Liver disease in homosexuals, **311**

Metronidazole, single-dose treatment for *T. vaginalis*, **238***
Metronidazole, *T. vaginalis* resistant to, **73***
Metronidazole, treatment of *Haemophilus vaginalis* and role in non-specific vaginitis, **73**
Miconazole, clotrimazole and amphotericin B, in-vitro studies, **238**
Miconazole nitrate in candidal vaginitis, **385***
Microbiota, oral, genital occurrence of, **158**
Microhemagglutination assay for antibodies to *T. pallidum*, **154***
Minocycline and amphotericin B, combined activity against yeasts, **157**
Minocycline and co-trimoxazole in treatment of prostatitis, **159***
Minocycline to prevent gonorrhoea, **384**
Mycoplasma, genital infections with, **237***
Mycoplasma infection in pregnant rats, **157***
Mycoplasmas, genital, relation to birthweight in primigravid women, **312**

Neisseria confirmation using bicarbonate-containing carbohydrate medium, **235**
Neisseria gonorrhoeae and *C. trachomatis* comparison of genital infections caused by, **237***
N. gonorrhoeae and *N. meningitidis*, differentiation with Congo-red disc and manganous chloride method, **235**
N. gonorrhoeae, antibiotic sensitivity of, in Johannesburg, **156***
N. gonorrhoeae, antibiotic susceptibility of, **384***
N. gonorrhoeae antibodies, enzyme-linked assays for detection of, **234**
N. gonorrhoeae, antigen-specific serotyping of, **235**
N. gonorrhoeae, a restriction endonuclease from, **384***
N. gonorrhoeae, auxotypes and antibiotic susceptibility patterns from disseminated and local infections, **308**
N. gonorrhoeae, auxotypes, phenotyping and epidemiology, **155**
N. gonorrhoeae, binding of cholesterol by, **235***
N. gonorrhoeae, β-lactamase from, purification and properties of, **384***
N. gonorrhoeae, β-lactamase inhibition in, by sodium clavulanate, **235***
N. gonorrhoeae, β-lactamase-producing, in gonococcal ophthalmia neonatorum, **234***
N. gonorrhoeae, cell envelope phospholipase activity, **71***
N. gonorrhoeae, comparative susceptibility of penicillinase-positive and negative, to 30 antibiotics, **383**
N. gonorrhoeae, comparison of antigenic heterogeneity by micro-immunofluorescence and serum bactericidal tests, **235**
N. gonorrhoeae, comparison of rosamicin, erythromycin, penicillin, and tetracycline against, in vitro, **236**
N. gonorrhoeae, complement-enhanced immunity to infection with, **384***
N. gonorrhoeae, conjugative plasmids in, **71***
N. gonorrhoeae, contribution of a TEM-1-like beta-lactamase to penicillin resistance in, **71**
N. gonorrhoeae CS7, cell envelope of, **308**
N. gonorrhoeae, detection of antibodies by counter-immunoelectrophoresis, **71***
N. gonorrhoeae, differences in susceptibilities of virulent and avirulent strains to antimicrobial agents, **71**
N. gonorrhoeae, effect of staphylococcin on, **155**
N. gonorrhoeae, effects of inhibitors on electron transport in, **71***
N. gonorrhoeae, effects of iron and culture filtrates on, **155**
N. gonorrhoeae, fluorescent antibody in identification of, **155***
N. gonorrhoeae, hen fluorescein-labelled gonococcal antibody for confirmation of, **383**
N. gonorrhoeae, identification and penicillinase testing, on cultures on New York City Medium, **71***
N. gonorrhoeae, identification by slide agglutination, **155***
N. gonorrhoeae, identification in liquid fermentation medium, **383**
N. gonorrhoeae, identification of basic extractable compounds produced by, **71***
N. gonorrhoeae, inhibition of thiamphenicol and chloramphenicol, **235***
N. gonorrhoeae, in-vitro activity of a new cephalosporin against, **384***
N. gonorrhoeae, in vitro activity of piperacillin and other β-lactamase antibiotics against, **384***
N. gonorrhoeae, lipopolysaccharide (R-type) as a common antigen of, (1) Immunizing properties, **71***
(2) Hen antiserum in rapid slide test, **71***
N. gonorrhoeae, multiple drug resistance in, **71***
N. gonorrhoeae: pathogenicity of colonial type 5, **71***
N. gonorrhoeae, penicillinase-producing in New York, **384***
N. gonorrhoeae, penicillin-resistance associated with patient variables, **236***
N. gonorrhoeae, pharyngeal coloniser or pathogen?, **384***

N. gonorrhoeae, plasmid-mediated chromosomal gene transfer in, **71***
N. gonorrhoeae, purification of immunoglobulin A1 protease, **235**
N. gonorrhoeae, rapid microcarbohydrate test for confirmation of, **234**
N. gonorrhoeae, relationship of *H. influenzae* plasmid to R factors from, **384***
N. gonorrhoeae, ribosomal fractions, mitogenic activity elicited by, **71***
N. gonorrhoeae, serodiagnosis, of nuclease enhancement of specific cell agglutination, **384***
N. gonorrhoeae, serology of demonstration of strain-specific antigens, **308**
N. gonorrhoeae, susceptibility to cefoxitin sodium, **156**
Neisseria, identification of, comparison of radiometric and conventional methods, **71***
N. meningitidis, ano-genital infection in homosexuals, **74**
N. meningitidis, identification of basic extractable compounds produced by, **71***
Neisseria species, three methods compared for identification of, **384***
Neisseriae, antibody-cleaving, **155***
Nephrotic syndrome, associated with endemic syphilis, **70**
Neurosyphilis today, **307**
New York, penicillinase-producing *N. gonorrhoeae* in, **384***
Non-gonococcal urethritis, diagnostic aetiology, **308**
Non-gonococcal urethritis, examination of patients and contacts for *C. trachomatis* and *U. urealyticum,* **236**
Non-gonococcal urethritis in Hawaii, **72**
Non-gonococcal urethritis, recent advances, **155***
Non-gonococcal urethritis, serological response of patients with, to organism of contagious equine metritis, **310**
Non-specific vaginitis: role of *Haemophilus vaginalis* and treatment with metronidazole, **73**
Non-specific vaginitis, *Haemophilus vaginalis* in, **74***

Oedema, penile, venereal, **312***

Papanicolaou smears, abnormal, cervicitis and chlamydiae, **310***
Papules, pigmented penile, with carcinoma *in-situ* changes, **238***
Penicillin binding by gonococcal membrane fractions, **71***
Penicillin cure of gonococcal urethritis, pharmokinetic determinants of, **384**
Penicillin, in-vitro activity against *N. gonorrhoeae,* **236**
Penicillin resistance in *N. gonorrhoeae,* contribution of a TEM-1-like beta-lactamase to, **71**
Perihepatitis associated with salpingitis in adolescents, **154**
Piperacillin, in-vitro activity against *N. gonorrhoeae,* and *H. influenzae,* **384***
Plasmid-mediated chromosomal gene transfer in *N. gonorrhoeae,* **71***
Plasmids, conjugative, in *N. gonorrhoeae,* **71***
Pneumonia and *C. trachomatis* in infants, two cases, **309**
Pneumonia due to *C. trachomatis* in baboons, histopathology, **309**
Pneumonitis, chlamydial, **73***, **309**
Podophyllin poisoning, **158**
Post-gonococcal urethritis in homosexual and heterosexual men, roles of *C. trachomatis* and *U. urealyticum,* **308**
Posthysterectomy patients, gonorrhoea in, **154**
Proctitis associated with genital herpes, **158***
Prostatitis, co-trimoxazole and minocycline in treatment of, **159***
Pyran, effect of, on latency of herpes simplex virus, **385***

Reiter's syndrome, association with *Chlamydia* infection, **237**
Rheumatic fever and gonococcal pharyngitis in an adult, **383**
Rosamicin, in vitro activity against *N. gonorrhoeae,* **236**
Rosamicin, sensitivity of *C. trachomatis* to, **156**

Salpingitis, acute, bacteriology of, **312**
Salpingitis, experimental, in monkeys, from *C. trachomatis,* **310***
Semen in men with recurrent genital herpes, **158**
Sexual assault; victim's psychology and related problems, **74***
Skin, late benign syphilis of, **70***
Sodium clavulanate, inhibition of β-lactamase in *N. gonorrhoeae,* **235***
Staphylococcin, effect on *N. gonorrhoeae,* **155**
STD, epidemiological approach to control of, **386***
STD in children, **386***
STD in homosexuals, **312***
Syphilis and yaws, **382** *bis**
Syphilis antibody, hemagglutination tests for, **70**
Syphilis, comparison of haemagglutination treponemal test with other serological tests, **233**
Syphilis, congenital, transplacental transmission of spirochaetes, **234***
Syphilis, early, C-reactive protein in Jarisch-Herxheimer reaction, **154**
Syphilis, early latent, evaluation of treatment, **233***
Syphilis, endemic, associated with nephrotic syndrome, **70**
Syphilis, hearing loss in, **382***
Syphilis, late benign of skin, **70***
Syphilis secondary, and Bell's palsy, **307**
Syphilis, serology, ELISA test, **233**
Syphilis, serology, false-positive reactions in, **382***
Syphilis, serology, fluorescent treponemal antibody absorption test, **382**
Syphilis, serology, Rappaport rapid plate test, **234***
Syphilis, serology, Syphla-Chek test, **382**
Syphilis, serology, TPI test, **233***

Tetracycline, in-vitro activity against *N. gonorrhoeae,* **236**
Tetracycline-resistant strains of *Ureaplasma urealyticum,* incidence of, **72**
Treponema, genetics of, relationship of *T. pallidum* and *T. hyodysenterae,* **234***
Treponema pallidum and *T. pertenue,* comparative behaviour of virulent strains, **382**
T. pallidum, capacity for DNA synthesis, **308**
T. pallidum, direct immunofluorescence of antibodies to, in rabbit syphilomas, **154**
T. pallidum, glucose incorporation by, **382***

T. pallidum, influence of oxygen tension, sulphydryl compounds and serum on motility and virulence, **307**
T. pallidum, in-vitro activity of cefuroxime against, **70***
T. pallidum, microhemagglutination assay for antibodies to, **154***
T. pallidum, mucopolysaccharides of, **383***
T. pallidum, radiolabelling with precursors for protein and RNA biosynthesis, **154***
T. pallidum, relationship to acidic mucopolysaccharides, **383***
T. pallidum, respiration and oxidative phosphorylation in, **154***
T. pallidum, surface mucopolysaccharides of, **382***
Trichomonas vaginalis infections, evaluation of indirect hemagglutination techniques in study of, **237**
T. vaginalis resistant to metronidazole, **73***
T. vaginalis, single-dose metronidazole in treatment of, **238***
T. vaginalis, single-dose treatment with benzylmetronidazole, **238***
T. vaginalis, strain resistant to metronidazole and other 5-nitro-imidazoles, **310***
Tunisia, antichlamydial antibody in tears and sera in, **157***

Ulcerative colitis, chlamydial antibodies in, **312**
Ureaplasma urealyticum, cell fractions and enzymatic activities of, **237***
U. urealyticum, cultivation in continuous culture, **310***
U. urealyticum, difficulties with isolation and identification of, **157**
U. urealyticum, effect of ammonium ion and osmotic pressure on growth of, **73***
U. urealyticum, examination for, in patients with non-gonococcal urethritis, **236**
U. urealyticum, incidence of tetracycline-resistant strains, **72**
U. urealyticum, role in post-gonococcal urethritis in homosexual and heterosexual men, **308**
U. urealyticum, serological typing in urethritis patients, **237**
U. urealyticum, urethral infection of chimpanzees by, **72**
Urethritis, clinical and microbiological investigation of men with, **310**

Vaginitis, **386***
Vaginitis, non-specific, amine content of vaginal fluid in, **386***
Vaginitis, quantitative bacteriology of vaginal flora, **386**

Warts, genital and skin, wart virus antibodies in patients with, **311**
Warts, genital, 5-fluorouracil on refractory, **311**
Warts, genital, 5-fluorouracil urethral suppositories in genital warts, **238***
Warts, genital, in a mother and infant, **158***
Warts, genital, incidence of associated infections, **158**

Yaws and syphilis, **382** *bis**
Yeasts, combined activity of minocycline and amphotericin B against, **157**
Yeasts, disc agar diffusion susceptibility testing of, **157**
Yeasts, prevalence in diabetic patients, **157***

British Journal of Venereal Diseases, 1979, 55, 464-467

British Journal of Venereal Diseases

Edited for the Medical Society for the Study of Venereal Diseases

EDITOR R. N. Thin

ASSISTANT EDITORS J. D. Oriel, B. Evans

EDITORIAL COMMITTEE C. B. S. Schofield (President MSSVD), J. Barrow (Honorary Secretary, MSSVD), G. Causse, G. Csonka, L. M. Drusin, J. M. Knox, A. McMillan (*Abstracts*), I. Phillips, E. Stolz, J. Thivolet, J. Wallin, A. E. Wilkinson, Editor of the *British Medical Journal*

TECHNICAL EDITOR Shuna Judge

VOLUME 55, 1979

BRITISH MEDICAL ASSOCIATION
TAVISTOCK SQUARE, LONDON WC1H 9JR

Contents

February 1979 Vol. 55 No. 1

An assessment of the Microcult-GC culture test
P. F. UNSWORTH, H. TALSANIA, AND I. PHILLIPS (Gt Britain) *page* 1

Serum immunoglobulin response in uncomplicated gonorrhoea
A. McMILLAN, GILLIAN McNEILLAGE, H. YOUNG, AND SHEILA R. BAIN (Gt Britain) *page* 5

Diagnosis of gonorrhoea in women
R. N. THIN AND ELIZABETH J. SHAW (Gt Britain) *page* 10

Pharyngeal colonisation by *Neisseria gonorrhoeae* and *Neisseria meningitidis* in black and white patients attending a venereal disease clinic
R. C. NOBLE, R. M. COOPER, AND BETTY R. MILLER (USA) *page* 14

Inhibition of *Neisseria gonorrhoeae* by normal human saliva
A. MELLERSH, A. CLARK, AND S. HAFIZ (Gt Britain) *page* 20

Short-term treatment of gonorrhoea with intramuscular and oral forms of trimethoprim-sulphamethoxazole
A. LASSUS AND O-V. RENKONEN (Finland) *page* 24

Antibodies to *Chlamydia trachomatis* in acute salpingitis
J. D. TREHARNE, K. T. RIPA, P.-A. MÅRDH, L. SVENSSON, L. WESTRÖM, AND S. DAROUGAR
(Gt Britain and Sweden) *page* 26

Ureaplasma urealyticum and *Mycoplasma hominis* in chlamydial and non-chlamydial nongonococcal urethritis
D. TAYLOR-ROBINSON, R. T. EVANS, E. D. COUFALIK, M. J. PRENTICE, P. E. MUNDAY, G. W. CSONKA, AND J. K. OATES
(Gt Britain) *page* 30

Treatment of nongonococcal urethritis with rifampicin as a means of defining the role of *Ureaplasma urealyticum*
E. D. COUFALIK, D. TAYLOR-ROBINSON, AND G. W. CSONKA (Gt Britain) *page* 36

Herpesvirus hominis antibodies among children and young adults in Ibadan
A. O. SOGBETUN, D. MONTEFIORE, AND C. N. ANONG (Nigeria) *page* 44

Necrotising balanitis due to a generalised primary infection with herpes simplex virus type 2
J. F. PEUTHERER, ISABEL W. SMITH, AND D. H. H. ROBERTSON (Gt Britain) *page* 48

Current approaches to the diagnosis, treatment, and reporting of trichomoniasis and candidosis
B. H. O'CONNOR AND M. W. ADLER (Gt Britain) *page* 52

A theory of the epidemiology of gonorrhoea
W. F. FELTON (Gt Britain) *page* 58

Treatment failure with penicillin in early syphilis
A. J. H. GILES AND A. G. LAWRENCE (Gt Britain) *page* 62

Correspondence *page* 65

Notice *page* 67

Report of the Medical Society for the Study of Venereal Diseases *page* 68

Abstracts *page* 70

April 1979 Vol. 55 No. 2

Bulletin of the International Union against the Venereal Diseases and Treponematoses: 29th General Assembly, Leeds, 21-25 May 1978 *page* 75

Theme 1: Recent advances in the microbiology and immunology of gonorrhoea

Sensitivity of *Neisseria gonorrhoeae* to penicillin in West Germany D. PETZOLDT, K. GRUNDER, AND U. NEUBERT (West Germany) *page* 80

Effect of different preparation procedures on the ultrastructure of gonococci W. GEBHART, W. JURECKA, J. SÖLTZ-SZÖTS, J. THURNER, A. ELLINGER, AND K. KITZ (Austria) *page* 83

Preservation of *Neisseria gonorrhoeae* by the gelatin-disc method S. YAMAI, Y. OBARA, T. NIKKAWA, Y. SHIMODA, AND Y. MIYAMOTO (Japan) *page* 90

Theme 2: Recent advances in the immunology of syphilis

Role of humoral versus cellular mechanisms of resistance in the pathogenesis of syphilis M. METZGER (Poland) *page* 94

Attenuated yaws in Surinam P. L. A. NIEMEL, E. A. BRUNINGS, AND H. E. MENKE (Surinam) *page* 99

Comparison of cardiolipin and treponemal tests in the serodiagnosis of yaws H. E. MENKE, J. VELDKAMP, E. A. BRUNINGS, P. L. A. NIEMEL, A. NOTOWICZ, AND E. STOLZ (The Netherlands) *page* 102

Double-staining procedure for the FTA-ABS test E. F. HUNTER, R. M. MCKINNEY, S. E. MADDISON, AND D. D. CRUCE (USA) *page* 105

A note on microscopy F. J. AUMONIER (Gt Britain) *page* 109

Therapeutic effect of oral doxycycline on syphilis Y. ONODA (Japan) *page* 110

Theme 3: Recent advances in the study of STDs due to viral and other agents

Follow up of patients with hepatitis B surface antigen P. D. SIMMONS (Gt Britain) *page* 116

Group B streptococcal infection J. M. KNOX (USA) *page* 118

Vaccination for herpes simplex genitalis TH. NASEMANN AND S. W. WASSILEW (West Germany) *page* 121

Therapeutic aspects of herpes genitalis J. SÖLTZ-SZÖTS AND D. FANTA (Austria) *page* 123

Theme 4: New trends in the epidemiology of STDs

Illness behaviour and STDs R. M. HARRISON (Gt Britain) *page* 125

Critical evaluation of the venereal disease control campaign in Poland (1970-76) J. TOWPIK (Poland) *page* 127

Epidemiology of gonorrhoea and syphilis in South Australia (1966-77) D. JORGENSEN (Australia) *page* 131

Epidemiology of gonorrhoea and syphilis in New Zealand W. M. PLATTS (New Zealand) *page* 138

Does gonorrhoea surveillance pay? R. C. RENDTORFF AND H. PACKER (USA) *page* 142

An alternative to the problem of insufficient physician manpower in the clinical care of STDs C. W. PARTON AND S. M. SGROI (USA) *page* 144

Results of routine screening for STDs in Austria over a six-year period D. FANTA, W. GEBHART, W. GROSS, E. M. KOKOSCHKA, J. SÖLTZ-SZÖTS, AND J. THURNER (Austria) *page* 147

Epidemiological importance of concealed nongonococcal urethritis R. R. WILLCOX (Gt Britain) *page* 149

Abstracts *page* 154

Notice *page* 159

Correction *page* 159

June 1979 Vol. 55 No. 3

The Harrison Lecture, 1978: Sexually transmitted diseases and travel
C. S. NICOL (Gt Britain) *page* 161

Ultrastructural study of satellite lymph nodes in syphilitic rabbits
R. W. LAPUSHIN, R. E. BAUGHN, D. M. MUSHER, AND P. GYORKEY (USA) *page* 168

Treatment monitoring in syphilis using the autoanalyser
D. E. MacFARLANE AND A. McMILLAN (Gt Britain) *page* 173

JUNE 1979 Vol. 55 No. 3 *continued*

Rapid presumptive diagnosis of gonococcal urethritis in men by the limulus lysate test
V. A. SPAGNA, R. B. PRIOR, AND R. L. PERKINS (USA) *page* 179

Assessment of a selective medium for the isolation of *Neisseria gonorrhoeae*
E. TAYLOR AND I. PHILLIPS (Gt Britain) *page* 183

Comparison of anal and rectal swabs in the diagnosis of anorectal gonorrhoea in women
B. KOLATOR AND P. RODIN (Gt Britain) *page* 186

Individual susceptibility to neisserial infection?
H. YOUNG, A. B. HARRIS, AND D. H. H. ROBERTSON (Gt Britain) *page* 188

Mezlocillin in the treatment of gonorrhoea
A. LASSUS AND O-V. RENKONEN (Finland) *page* 191

Growth and effect of chlamydiae in human and bovine oviduct organ cultures
G. R. HUTCHINSON, D. TAYLOR-ROBINSON, AND R. R. DOURMASHKIN (Gt Britain) *page* 194

Chlamydia trachomatis in acute salpingitis
J. PAAVONEN, P. SAIKKU, E. VESTERINEN, AND K. AHO (Finland) *page* 203

HLA and sexually transmitted diseases in prostitutes
S. H. CHAN, T. TAN, A. KAMARUDIN, G. B. WEE, AND V. S. RAJAN (Singapore) *page* 207

Clinical pharmacological studies of amoxycillin: effect of probenecid
R. BARBHAIYA, R. N. THIN, P. TURNER, AND J. WADSWORTH (Gt Britain) *page* 211

Haematuria presenting in outpatients attending a department of genitourinary medicine
K. L. AMARASURIYA (Gt Britain) *page* 214

Seasonal variations in the reported incidence of sexually transmitted diseases in Scotland (1972-1976)
C. B. S. SCHOFIELD (Gt Britain) *page* 218

Reinfection with disseminated gonococcal disease: a case report
N. J. FIUMARA AND A. D. SIMKIN (USA) *page* 223

Sexually transmitted diseases: Extract from the Report of the Chief Medical Officer of the Department of Health and Social Security, 1977 *page* 225

Correspondence *page* 230

Book reviews *page* 231

Notices *page* 232

Abstracts *page* 233

August 1979 Vol. 55 No. 4

Evaluation of microhaemagglutination assay to determine treponemal antibodies in CSF
A. BIRRY AND S. KASATIYA (Canada) *page* 239

Attachment of *Neisseria gonorrhoeae* to human sperm: Microscopical study of effect of trypsin and iron
C. I. GOMEZ, W. A. STENBACK, A. N. JAMES, B. S. CRISWELL, AND R. P. WILLIAMS (USA) *page* 245

Studies of ciliated epithelia of the human genital tract
P.-A. MÅRDH, B. BALDETORP, C. H. HÅKANSSON, H. FRITZ, AND L. WESTRÖM (Sweden) *page* 256

AUGUST 1979 Vol. 55 No. 4 *continued*

Secretory antibody response of the cervix to infection with *Neisseria gonorrhoeae*
A. McMILLAN, G. McNEILLAGE, H. YOUNG, AND S. S. R. BAIN (Gt Britain) *page* 265

Evaluation of urethral culture for *Neisseria gonorrhoeae* in the routine investigation of men attending a STD clinic
A. McMILLAN AND R. S. PATTMAN (Gt Britain) *page* 271

Gonorrhoea in women in Scotland
C. B. S. SCHOFIELD (Gt Britain) *page* 274

How often are gonorrhoea and genital yeast infection sexually transmitted?
R. N. THIN, P. RENDELL, AND J. WADSWORTH (Gt Britain) *page* 278

The need for a chlamydial culture service
J. R. WILLCOX, P. G. FISK, J. BARROW, AND D. BARLOW (Gt Britain) *page* 281

Double-blind comparison of two regimens in the treatment of nongonococcal urethritis: seven-day *vs* 21-day courses of triple tetracycline (Deteclo)
I. V. THAMBAR, P. D. SIMMONS, R. N. THIN, S. DAROUGAR, AND P. YEARSLEY (Gt Britain) *page* 284

Rapid staining technique for *Trichomonas vaginalis*
M. J. BALSDON, N. GREEN, C. W. ANDREW, AND D. H. JACKSON (Gt Britain) *page* 289

False-positive test results for syphilis in relatives of a patient with systemic lupus erythematosus
S. JESSOP AND P. BOTHA (South Africa) *page* 292

Social distribution of sexually transmitted diseases
P. M. BACON (Gt Britain) *page* 295

Sexually transmitted diseases in Ontario
R. D. CATTERALL (Gt Britain) *page* 300

Australian conference on STD in Perth, Western Australia, August 1978
R. S. MORTON *page* 304

Correspondence *page* 305

Book reviews *page* 306

Notice *page* 306

Abstracts *page* 307

October 1979 Vol. 55 No. 5

Study of STDs in patients attending venereal disease clinics in Khartoum, Sudan
O. M. A. TAHA, M. HAG ALI, E. E. OMER, M. A. AHMED, AND S. A. ABBARO (Sudan) *page* 313

Use of CB hamsters in the study of *Treponema pertenue*
R. F. SCHELL, J. L. Le FROCK, J. P. BABU, AND J. K. CHAN (USA) *page* 316

Cultivation of *Treponema pallidum* in subcutaneous chambers implanted in golden hamsters
G. D. MORRISON, S. I. EGGLESTONE, AND J. L. NORTHWOOD (Gt Britain) *page* 320

Sensitivity of *Neisseria gonorrhoeae* to antibiotics in London (1976-78)
A. D. SETH, B. KOLATOR, AND A. E. WILKINSON (Gt Britain) *page* 325

OCTOBER 1979 Vol. 55 No. 5 *continued*

Failure of iron to promote attachment of gonococci to human spermatozoa under physiological conditions
A. P. JOHNSON AND MARY F. OSBORN (Gt Britain) *page* 329

Frequency of simultaneous carriage of *Neisseria gonorrhoeae* and *Neisseria meningitidis*
K. ØDEGAARD AND T. W. GEDDE-DAHL (Norway) *page* 334

Meningococcal colonisation misdiagnosed as gonococcal pharyngeal infection
R. C. NOBLE AND R. M. COOPER (USA) *page* 336

Double-blind trial of amoxycillin and ampicillin plus probenecid in the treatment of gonorrhoea in men
A. R. BRATHWAITE (Jamaica) *page* 340

Single-dose minocycline in the treatment of gonococcal urethritis
P. M. WATERWORTH, J. D. ORIEL, G. L. RIDGWAY, AND S. SUBRAMANIAN (Gt Britain) *page* 343

Vaginal oxytetracycline concentrations
R. N. THIN, Z. H. AL RAWI, P. D. SIMMONS, J. TREHARNE, AND S. TABAQCHALI (Gt Britain) *page* 348

Metronidazole-resistant *Trichomonas vaginalis*
A. FORSGREN AND L. FORSSMAN (Sweden) *page* 351

Double-blind comparison of a single dose and a five-day course of metronidazole in the treatment of trichomoniasis
R. N. THIN, M. A. E. SYMONDS, R. BOOKER, S. COOK, AND F. LANGLET (Gt Britain) *page* 354

Epidemiological investigation of patients with vulvovaginal candidosis
D. W. WARNOCK, D. C. E. SPELLER, J. D. MILNE, A. L. HILTON, AND P. I. KERSHAW (Gt Britain) *page* 357

Effect of simultaneous oral and vaginal treatment on the rate of cure and relapse in vaginal candidosis
J. D. MILNE AND D. W. WARNOCK (Gt Britain) *page* 362

Sexual transmission of hepatitis B surface antigen
N. INABA, R. OHKAWA, A. MATSUURA, J. KUDOH, AND H. TAKAMIZAWA (Japan) *page* 366

Staphylococcus saprophyticus in the aetiology of nongonococcal urethritis
B. HOVELIUS, I. THELIN AND P.-A. MÅRDH (Sweden) *page* 369

Epidemic of amoebiasis and giardiasis in a biased population
B. H. KEAN, D. C. WILLIAM, AND S. K. LUMINAIS (USA) *page* 375

Correspondence *page* 379

Book reviews *page* 381

Abstracts *page* 382

December 1979 Vol. 55 No. 6

Optimum concentration of dissolved oxygen for the survival of virulent *Treponema pallidum* under conditions of low oxidation-reduction potential
S. GRAVES AND T. BILLINGTON (Australia) *page* 387

Susceptibility of rabbits to *Treponema pallidum* after infection with *Mycobacterium bovis*
S. GRAVES (Australia) *page* 394

Limited protection of rabbits against infection with *Treponema pallidum* by immune rabbit sera
S. GRAVES AND J. ALDEN (Australia) *page* 399

Reverse passive haemagglutination test for the rapid identification of *Neisseria gonorrhoeae* and detection of penicillinase production
R. MUNRO AND R. MALLON (Australia) *page* 404

Prevalence of rectal and pharyngeal infection in women with gonorrhoea in Sheffield
G. R. KINGHORN AND S. RASHID (Gt Britain) *page* 408

Comparison of minocycline and ampicillin in gonococcal urethritis
M. A. WAUGH, E. MARY COOKE, B. B. G. NEHAUL, AND JANET BRAYSON (Gt Britain) *page* 411

Chlamydia trachomatis genital infections
F. D. GHADIRIAN AND H. G. ROBSON (Canada) *page* 415

Antichlamydial antibodies in pelvic inflammatory disease
P. D. SIMMONS, T. FORSEY, R. N. THIN, J. D. THREHARNE, S. DAROUGAR, F. LANGLET, AND P. K. PANDHI (Gt Britain) *page* 419

Chlamydia trachomatis infection of the Fallopian tubes
B. R. MØLLER, L. WESTRÖM, S. AHRONS, K. T. RIPA, L. SVENSSON, C. von MECKLENBURG, H. HENRIKSON AND P.-A. MÅRDH (Denmark and Sweden) *page* 422

Prevalence of nine different micro-organisms in the female genital tract
K. PERSSON, KRISTINA PERSSON, H. HANSSON, B. BJERRE, L. SVANBERG, T. JOHNSSON, AND A. FORSGREN (Sweden) *page* 429

Effect of hysterectomy on genital infections
F. N. JUDSON AND M. A. RUDER (USA) *page* 434

Rising incidence of chancroid in Rotterdam
K. C. NAYYAR, E. STOLZ, AND M. F. MICHEL (Holland) *page* 439

Effect of injections of small doses of human fibroblast interferon into genital warts
G. M. SCOTT AND G. W. CSONKA (Gt Britain) *page* 442

Perigenital cutaneous schistosomiasis
F. A. B. ADEYEMI-DORO, A. O. OSOBA, AND T. A. JUNAID (Nigeria) *page* 446
